AUTOMATIC ELECTRIC RIFLE

**-HANDLING CAUTIONS AND INSTRUCTION MANUAL-**  
Always read through this manual before operation.

In 21 century, after USSR is disintegrated, the weapon which used to against Western nations, now is turn to export commodity. For response the demand of market, Izhmash base on AK-74M, is developing AK-101 and AK-102 (short version of AK-101) which use 5.56mm NATO ammunition to target Western market. AK-103 and AK-104 (short version of AK-103), which use 7.62x39mm M43 ammunition for rest countries who still use AK-47. Further more, AK-105 continues to use 5.45x39mm M74 ammunition, which to be treated as modernize version of AKS-74U.
