M40A5

Filling Gas
Push the gas canister nozzle into the Filling gas nozzle.
Make sure the canister is in vertical position when charging.

Loading BBs
Insert the BBs into the Magazine. The maximum capacity is 14 round.

Release Gas
Please discharge the magazine by press the value gently, for releasing residual gas.

Safety setting
a. Safety lever backward toward S position refers to “safety on”, DO NOT pull the trigger while safety is on, otherwise the trigger unit will be damaged.
b. Safety lever forward toward “F” position refers to “safety off”. DO NOT have it on unless you intend to fire.

NOTE: Keep safety on during transportation and storage

Shooting
a. Rotate the cocking handle counter-clockwise to the vertical position, and pull the bolt all the way back until a “click” sound heard.
b. Push the bolt forward and rotate down the cocking handle.
c. Push the safety forward towards the ’F’ position to disengage the safety mechanism.
d. Ready to pull the trigger to fire.

Loading indicator (M40A5)
a. Loading indicator will rise out when rifle is ready to fire.
b. If not in shooting, Please take magazine off and pull trigger to release hammer.

NOTE: ALWAYS USE THE VFC HIGH QUALITY BB PELLET FOR YOUR AIRSOFT RIFLE.
HOP UP Setting

M40A3

- Wheel it clockwise to INCREASE HOP UP.
- Wheel it counter clockwise to DECREASE HOP UP.

M40A5

Use the hexagon keys (included) adjust HOP-UP.

Stock Adjustment

- a. Check rest: loose the check rest screws, and lift the check rest up or down.
- b. Loose the screw in the butt stock pad, and remove or add the butt pad inserts for best fitting.

Gas Bolt Take Down (M40A5)

- a. Take down magazine.
- b. Pull up charging handle.
- c. Push bolt release button and hold.
- d. Pull out bolt assembly.
Trouble Shooting (M40A3)

Cannot cock the bolt in appropriate position

Caution:

DO NOT force to push the bolt forward. The loading slider and loading plate will be damaged.

Step A
1. Remove the magazine and pull the cocking handle backward.
2. Upside down the rifle and push the cocking handle forward.

※ If the problem is still exist, please move on to Step B

Step B

Caution:
Before you take down the receiver assembly, please have the safety on and wheel counter clockwise to disable hop up completely.

1. Upside down the rifle.
2. Remove the indicated screws and pull out the trigger guard.
3. Unsecure the indicated screws on the loading slider and remove it.
4. Pull the bolt backwards and remove all the BBs in the chamber and loading unit.
